

## Knowledge Quest Maps, Timelines & Curricula

### How to use them for your school, class or co-op

It is our desire that Knowledge Quest maps and timelines be used for the benefit of your co-op, school or classroom. It is a violation of our copyright, however, to print them freely for group purposes. Therefore, we would like to extend to you three options to make them more affordable for your school or classroom. The first option is to take advantage of our group discounts which makes purchasing a map set for each student an affordable option. The second option is to contract with us for a site license which would give the school or co-op unlimited use of that product for the entire year (12 months unless otherwise noted). The final option would be to purchase individual maps and pay by the piece. Information for all three options follow:

#### Maps by the Piece

Choose the maps you desire for your class, then order them by the piece. If you have less than 25 students, the price for individual prints of our maps run at .40 cents a piece, if you have between 25-40 students, the price drops to .35, and if 40 and over, the price comes down to .30. *(Here is an example of how this works: let's say that you have 10 students and you want each of them to have 10 maps this next year. The total would come to 100 maps x .40 which equals \$40.00.)* The maps are printed, collated, shrink-wrapped and shipped to you ready to use for your class.
